SUBJECT: State's Reply to Senator Jackson's letter

Re State's reply to Senator Jackson, [REDACTED] got a little clearer elaboration. The "interim" reply which State prepared was really intended by them as the only response to Jackson at this time. Their answer simply expressed interest in the report and a continuing interest in the problem. It is the impression of [REDACTED] friend that Jackson will write the various agencies again in the near future at which point a more detailed exposition of State's views on the matter will be in order. Meanwhile, the report will be passed around in State for study and discussion.
